

***MORE COMFORT AND EFFICIENCY
WITH VORNADO AND
SHARPER IMAGE PRODUCTS***

PRODUCT RANGE 2023

Vornado was founded on the premise that comfort should be constant and uncompromising. This notion holds true today within a broad range of products that enhance efficiency and keep everyone in the room comfortable, all year long.

Vornado maintains its worldwide reputation for forward-thinking products and unsurpassed customer service from its headquarters in Andover, Kansas.

Vornado

HISTORY

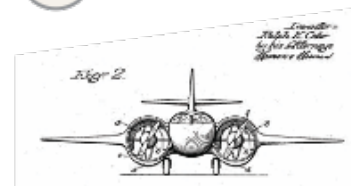

vornado [vor-nay-doe]
(noun)

In the early 1920's, "Vornado" started as a visionary aircraft design. The words **vortex** and **tornado** were combined to describe this groundbreaking airflow concept.

Original VORNADO FAN

» The **VORNADO FAN** was the first considerable evolution in airflow since the oscillators of the 1920s and 30s.

VORNADO PIVOT5

WHOLE ROOM AIR CIRCULATOR

Pivotal performance.

The Pivot5 brings 3 speed settings and a pivoting axis to move air up to 20 m using powerful vortex circulation.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

WHOLE ROOM AIR CIRCULATOR

The Pivot5 steps up the comfort level in your home with the combination of efficient airflow and sleek silhouette. Designed with a nod to our roots in aviation, the Pivot series draws inspiration from the rounded, robust form and appearance of a jet engine. This member of the Pivot family brings powerful whole room circulation and sits atop an eye-catching chromed steel base. With a pivoting axis to direct the air where you need it, you can easily keep cool and comfortable in style.

TOPLINE:

- Whole Room Vortex Circulation
- Tight Grille Spirals
- Moves Air Up To 20 m
- 3 Speed Settings
- Pivoting Head
- Quiet Operation
- Grill Diameter Ø 18.4 cm
- Product Height 27.6 cm

*Available in Color: Ice grey white,
Article number 701685*

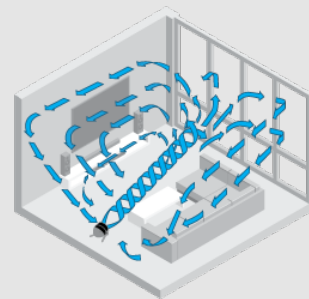

VORNADO PIVOT6

WHOLE ROOM AIR CIRCULATOR

**Minimalist design.
Maximal power.**

With 4-speed touch controls, pivoting head and a remote control, Pivot6 brings a new level of power and style to whole room circulation.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

WHOLE ROOM AIR CIRCULATOR

The Pivot's modern, sleek design reaches a new level of power and sophistication with Pivot6. The newest and most substantial member of the Pivot family brings powerful whole room circulation, 4 speed touch controls and the added convenience of a remote control – sitting atop a beautiful sturdy chromed steel base. Pivot6 brings minimalist design with maximal power and features.

TOPLINE:

- Vortex Circulation
- 4 Speed Settings
- Moves Air Up To 23 m
- Rotating Axis
- Remote Control
- Quiet Operation
- Grill Diameter Ø 23.2 cm
- Product Height 31.3 cm

OPTIONAL

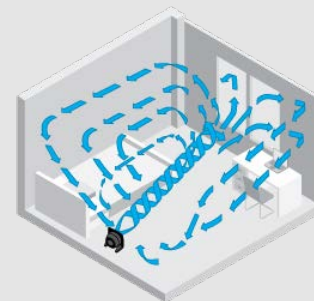

VORNADO 573

PANEL AIR CIRCULATOR / **SMALL**

**More performance.
Less space.**

With 3 speed settings and multidirectional airflow that moves air up to 18.2 m, the 573 ensures everyone in the room is consistently comfortable.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

VORNADO 573

PANEL AIR CIRCULATOR / SMALL

The geometric, low profile design of the 573 brings Vornado Vortex Action into a sleek, unobtrusive form that can be positioned for horizontal or vertical airflow. The horizontal position is ideal for warm weather, circulating and mixing all the air in the room. The vertical position is ideal for winter use, as the powerful airflow can force warm air off the ceiling, recirculating it into the lower portions of the living space. The minimalistic style treads new ground in Vornado circulator design. Contrasting high gloss and textured finishes create a modern yet understated look that fits a variety of décor.

TOPLINE:

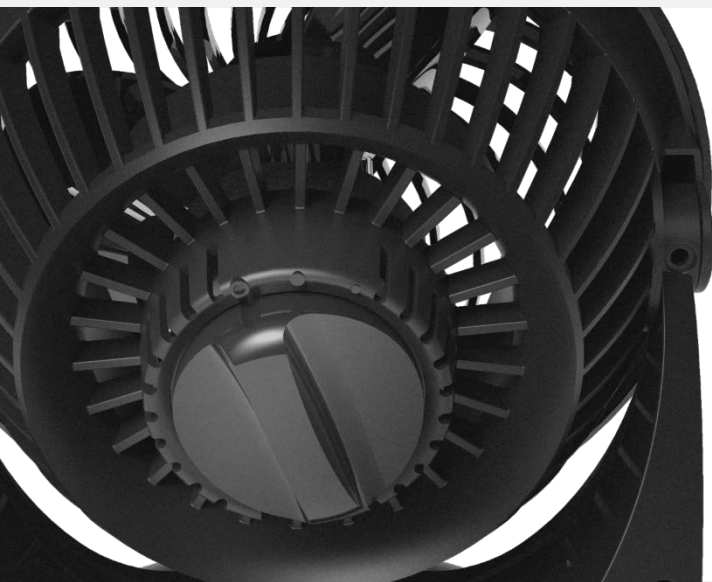

- Moves Air Up To 18.2 m
- 3 Speed Control
- Energy Saver
- Grill Diameter Ø 19.3 cm
- Product Height 26 cm

Available in Color: Black,
Article number 700850

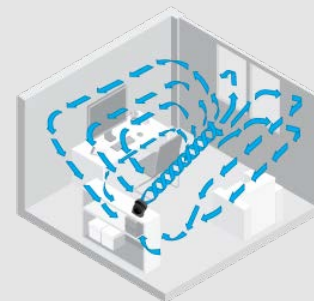

VORNADO 133

SMALL ROOM AIR CIRCULATOR

Power just for you.

With horizontal or vertical airflow capabilities, 2 speed settings and an easy to clean removable grille, the 133 provides comfortable, compact air circulation.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

SMALL ROOM AIR CIRCULATOR

The 133 Small Room Air Circulator continues Vornado's superior performance by incorporating its Vortex Technology in a new, compact design. With its unique signature grille and deep-pitched blade, the 133 moves air up to 7.2 m and provides complete circulation of all the air in the room for a comfortable, even room temperature. The compact size makes the 133 perfect anywhere in the home or office.

TOPLINE:

- Signature Vortex Circulation
- Moves Air Up To 7.2 m
- 2-Speed Control
- Multidirectional Airflow
- Easy to Clean
- Whisper Quiet
- Energy Saver
- Grill Diameter Ø 17.2 cm
- Product Height approx. 22 cm

OPTIONAL

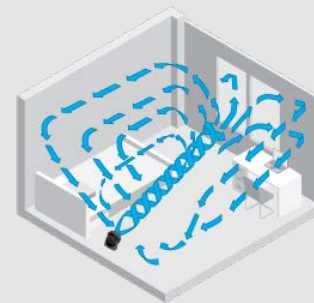

VORNADO 533

WHOLE ROOM AIR CIRCULATOR

Style & function.

With 3 speed settings and a pivoting head, the 533 uses powerful vortex circulation to move air up to 21.3 m.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

VORNADO 533

WHOLE ROOM AIR CIRCULATOR

Despite its small size, the 533 is more powerful than a 45.7 cm commercial fan! Its compact size makes it ideal for use in an office, dorm room or cubical. Evens room temperature, eliminating hot and cold spots.

TOPLINE:

- Moves Air Up To 21.3 m
- Multidirectional Air Flow
- Easy To Clean
- 3 Speed Control
- Energy Saver
- Grill Diameter Ø 18.5 cm
- Product Height approx. 29 cm

Available in Color: Black
Article number 700841

633

MEDIUM AIR CIRCULATOR

Packed with power.

With 3 speed settings and a pivoting head, the 633 uses powerful vortex circulation to move air up to 23 m.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

MEDIUM AIR CIRCULATOR

Unlike a household fan, the 633 uses signature energy-efficient Vortex Technology to fully circulate all the air in the room, eliminating hot and cold spots. Ideal for small to mid-size rooms, such as a bedroom, kitchen or office. This air circulator can be placed on the floor or tabletop.

TOPLINE:

- Moves Air Up To 23 m
- Multidirectional Air Flow
- Easy To Clean
- Whisper Quiet
- 3 Speed Control
- Energy Saver
- Grill Diameter Ø 23.8 cm
- Product Height 35 cm

VORNADO 530

TABLE AND FLOOR FAN

Due to its compact design, the Vornado 530 can be transported quickly from room to room. The fan can be used in a variety of ways as a table or floor fan. Ensures even air circulation in small rooms and offices. Vornado provides you with a pleasant indoor climate at any time of the year.

TOPLINE:

- Vortex Circulation
- Easy To Clean
- Whisper Quiet
- 3 Speed Control
- Energy Saver
- Grill Diameter Ø 19 cm
- Product Height 27.43 cm

*Available in Color: Black
Article number 700159*

WHOLE ROOM AIR CIRCULATOR

Sleek design in a very compact size: this fan brings the usual Vornado power on a small scale. Perfect for smaller spaces such as your office cubicle or dorm room. Circulate the whole room from top to bottom to improve the air quality and even out the temperature.

TOPLINE:

- Moves Air Up To 21 m
- Vortex Circulation
- Easy To Clean
- Whisper Quiet
- 3 Speed Control
- Energy Saver
- Product Height 29.2 cm

*Available in Color: Black,
Article number 701968*

TABLE AND FLOOR FAN

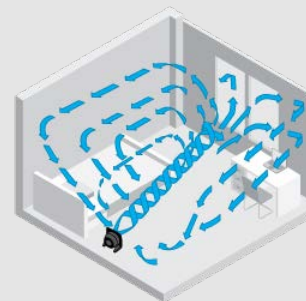

3 speeds for the perfect airflow whenever you need it. Place it on the floor or on a higher surface to circulate the air to perfection. The sleek and modern design fits perfectly into every home.

TOPLINE:

- Multidirectional Air Flow
- Easy To Clean
- Whisper Quiet
- 3 Speed Control
- Energy Saver
- Grill Diameter Ø 25.5 cm
- Product Height 34.5 cm

Available in Color: Black,
Article number 701967

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

PEDESTAL AIR CIRCULATOR

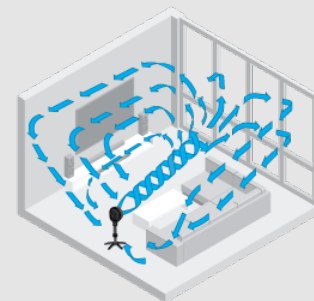

Taking comfort and design to a higher level. Very easy to assemble and tool-free base that was designed for a quick and easy setup, takedown and storage. Aerodynamically circulating the air for your comfort with its signature grille and deep-pitched propellers.

TOPLINE:

- Moves Air Up To 23 m
- Vortex Circulation
- Easy To Clean
- Whisper Quiet
- 3 Speed Control
- Energy Saver
- Adjustable Product Height 83.8 – 109.2 cm

Available in Color: Black

VORNADO 460

WHOLE ROOM AIR CIRCULATOR

Absolute control.

3-speed controls and fully adjustable chrome glide bar allow you to have absolute control of airflow to meet any circulation need.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

WHOLE ROOM AIR CIRCULATOR

Inspired by the larger Vornado 660, the 460 features dramatic gloss and matte finishes and sleek lines. Its whole room vortex action empowers the 460 to move air up to 22 m. A chrome glide bar enables a full 90-degree tilt, and a user-friendly knob controls three airflow speeds. Maintenance is simple with a detachable grille that provides easy access to the blades. And the 460 is backed by Vornado's industry-leading 5-year satisfaction guarantee.

TOPLINE:

- Moves Air Up To 22 m
- Multidirectional Air Flow
- 3 Speed Control
- Fully Adjustable Chrome Glide Bar
- Grill Diameter Ø 19 cm
- Product Height approx. 29 cm

OPTIONAL

Available in Black
& Ice White

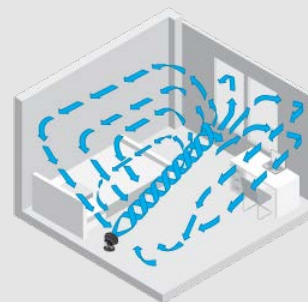

VORNADO 560

MEDIUM AIR CIRCULATOR

Absolute control.

4 speed settings with push button controls, pivoting head and fully adjustable chrome glide bar allow you to have absolute control to meet any circulation need.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

VORNADO 560

MEDIUM AIR CIRCULATOR

The 560 combines the signature Vornado grille and deep-pitched propeller to move air up to 23 m, while aerodynamically circulating all the air in a room. The 4-speed control allows for speed selection to meet any circulation need. Have absolute control of airflow, with the fully adjustable chrome glide bar. Use the 560 all year long for added comfort and energy savings in every season.

TOPLINE:

- Moves Air Up To 23 m
- Multidirectional Air Flow
- 4 Speed Push-button Control
- Fully Adjustable Chrome Glide Bar
- Grill Diameter Ø 22.3 cm
- Product Height 34.2 cm

VORNADO 660
LARGE AIR CIRCULATOR

Modern, yet understated.

The 660 is the next evolution of the Vornado circulator, with 4 speed settings with push button controls and a chrome glide bar that allows full control of airflow.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

LARGE AIR CIRCULATOR

The 660 represents the next generation of Vornado circulation. Immediately noticeable is the restyled exterior that features dramatic gloss and matte finishes, sleek lines and a slightly smaller footprint than Vornado's full-size circulators. The 660 fluidly glides between horizontal and vertical airflow positions. Maintaining the 660 is simple with a detachable grille that provides easy access to the blades for cleaning.

TOPLINE:

- Moves Air Up To 31 m
- Multidirectional Air Flow
- Whisper Quiet
- 4 Speed Push-Button Control
- Energy Saver
- Fully Adjustable Chrome Glide Bar
- Grill Diameter Ø 26.4 cm
- Product Height 38 cm

VORNADO 533DC

ENERGY SMART AIR CIRCULATOR

More power than ever before.

With lesser fans, higher efficiency sometimes equates to less-powerful airflow – not so with Energy Smart™ circulators. Combining a more-powerful, brushless DC motor with legendary Vornado engineering, our new line of circulators deliver power to spare.

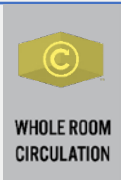

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

VORNADO 533DC

ENERGY SMART AIR CIRCULATOR

The Vornado Energy Smart™ line includes the 533DC – a more compact, DC-motor air circulator with up to 80 percent energy efficiency. Simple variable speed control gives you precise airflow up to 23 m while our signature Vortex Action creates whole room circulation, keeping the entire room cool and comfortable. Plus, the 533DC is backed with an industry-leading 10-year satisfaction guarantee.

TOPLINE:

- Moves Air Up To 23 m
- Up to 80 % More Energy-Efficient
- More Powerful Airflow
- Precise Control – Variable Speed
- Grill Diameter Ø 18.5 cm
- Product Height 29 cm

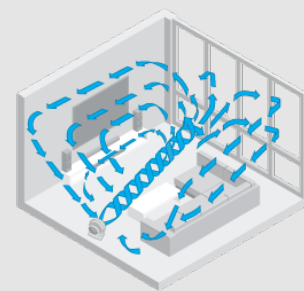

VORNADO 633DC
ENERGY SMART AIR CIRCULATOR

**Precisely control
your airflow.**

Nearly infinite speed settings let you zero in on your ideal environment. Whether it's a soft, silent flow, a turn-it-up crank or any point in between, precise controls enable you to dial in the airflow setting feels right for you.

**Circulate all the air in the
room.**

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

ENERGY SMART AIR CIRCULATOR

The Vornado 633DC Energy Smart™ circulator gives you up to 80 percent energy efficiency with its powerful DC-motor that moves air up to 24.8 m. Simple variable speed control gives you precise control of the signature Vortex Action creates whole room circulation, keeping the entire room cool and comfortable. Plus, the 633DC is backed with an industry-leading 10-year satisfaction guarantee.

TOPLINE:

- Moves Air Up To 24.38 m
- Up To 80 % More Energy-Efficient
- More Powerful Airflow
- Precise Control – Variable Speed
- Grill Diameter Ø 23.8 cm
- Product Height 35 cm

VORNADO 683DC ENERGY SMART

ENERGY SMART AIR CIRCULATOR

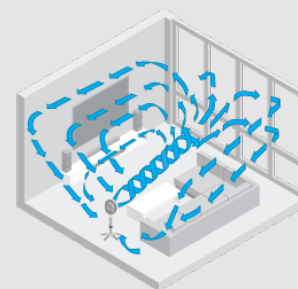

ENERGY SMART

Dial in your comfort.

Nearly infinite speed settings and precise controls enable you to dial in on the airflow setting that feels right for you.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

ENERGY SMART AIR CIRCULATOR

With the Vornado 683DC Energy Smart™ pedestal circulator you experience powerful airflow (moves air up to 24.4 m), and up to 80 % energy efficiency with its powerful DC-motor. And when adjustability is needed its sturdy stand adjusts from 82 – 96 cm. An easy-to-use variable speed control dial gives you precise control of the signature Vortex Action creates whole room circulation, keeping the entire room cool and comfortable. Plus, the 683DC is backed with an industry-leading 10-year satisfaction guarantee.

TOPLINE:

- Moves Air Up To 24.4 m
- Up To 80 % More Energy-Efficient
- More Powerful Airflow
- Precise Control – Variable Speed
- Grill Diameter Ø 24 cm
- Adjustable Product Height approx. 82 – 96 cm

OPTIONAL

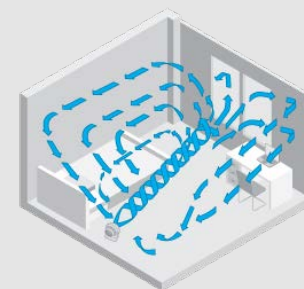

VORNADO 5303DC

ENERGY SMART AIR CIRCULATOR

Beauty & brains.

Energy Smart™ DC circulators add a modern aesthetic and efficiency to the home. Clean lines and a smooth modern palette add to an updated form to accompany your style.

Circulate all the air in the room.

A Vornado circulator uses special airflow called Vortex Action to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

VORNADO 5303DC

ENERGY SMART AIR CIRCULATOR

The 5303DC is Vornado's debut circulator in the Energy Smart™ family. Combining sleek style with a more-powerful airflow (up to 25 m), the brushless DC motor uses up to 80 % less energy, bringing modern efficiency to the home. A return to variable speed puts you in precise control of your environment via 99 unique airflow settings, and an energy-saving timer shuts off the air when it's not needed. Electronic push-button and touch controls, plus a remote control, bring added convenience. Complete with our 10-year satisfaction guarantee, these DC circulators will keep you comfortable for years (and years) to come.

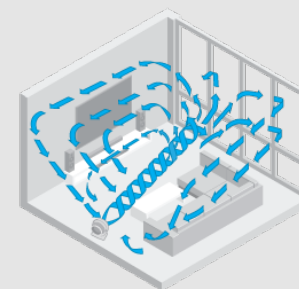

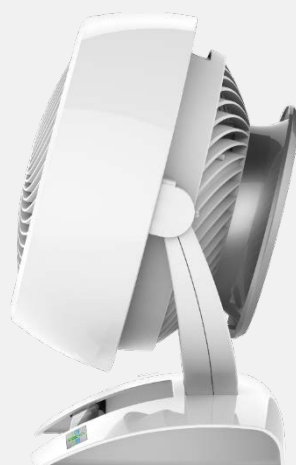

TOPLINE:

- Moves Air Up To 25 m
- Up to 80 % More Energy-Efficient
- More Powerful Airflow
- Precise Control – 99 Speeds
- Electronic Push Button and Touch Controls
- Remote Control
- 1 – 12 Hour Timer
- Grill Diameter Ø 19.3 cm
- Product Height 29.8 cm

VORNADO 6303DC

ENERGY SMART AIR CIRCULATOR

Precise control.

ATOM

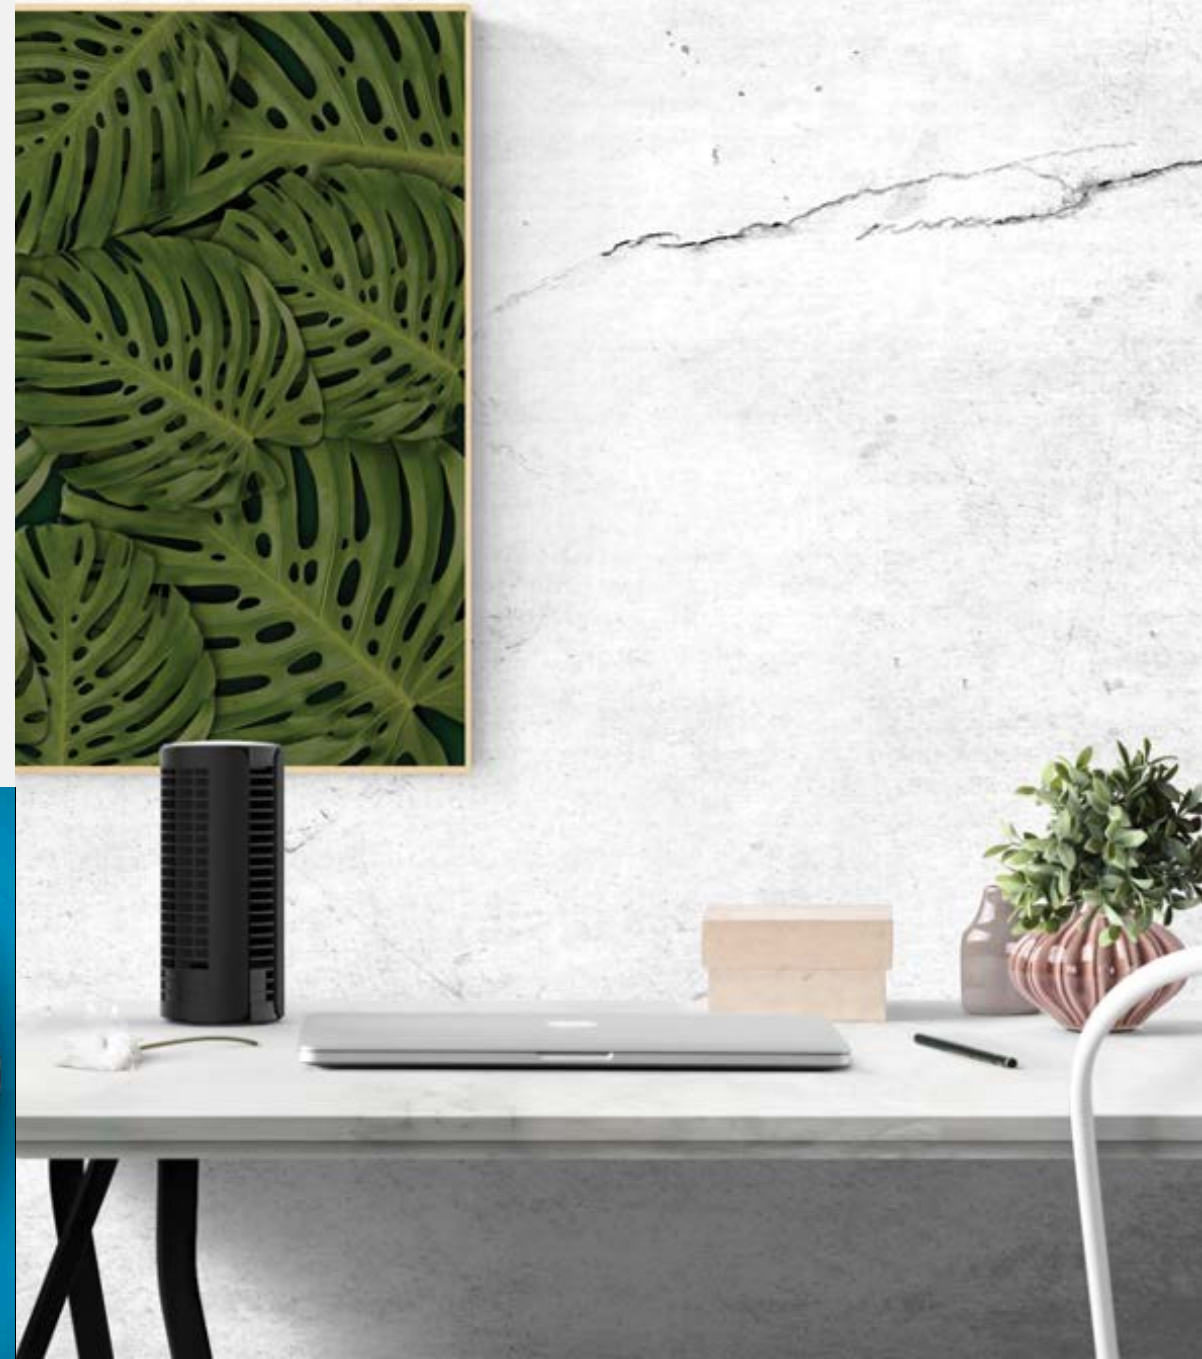

360° OSCILLATING TOWERS

VORNADO **ATOM 1**
COMPACT TOWER CIRCULATOR

**360° customizable
airflow.**

ATOM 1 puts oscillation on overdrive,
with a user-selected, multi-stage
oscillation range of 90° up to 360°.

VORNADO ATOM 1

COMPACT TOWER CIRCULATOR

The unexpectedly powerful ATOM 1 is a small room tower circulator that brings substantial airflow anywhere in the home, and with the swipe of a finger you can easily choose from 90° up to 360° of oscillation. With 4 speeds you can go from a gentle breeze to a high-velocity rush of air. A little product that brings a big list of credentials – ATOM 1 is small, but mighty.

TOPLINE:

- 360° Oscillation
- 4 Speed Settings
- Gestural Touch-Sensitive Controls
- Quiet Operation
- Grill Diameter Ø 11.8 cm
- Product Height 25.5 cm

It's great to have options.

OSCILLATION

Utilizing the legendary Vornado power, yet designed to precisely deliver smooth and quiet comfort.

OR

V-FLOW

Uniquely contoured air outlets create a wide span of constant airflow, without the need for oscillation.

VORNADO OSCR32

TOWER CIRCULATOR

Style & function.

Incredible chrome accents with an integrated handle, 3 speed settings, energy-saving timer and a sleek design. You could ask for more, but why would you?

WHOLE ROOM CIRCULATION

OSCILLATION ON DEMAND

Circulate or oscillate.

A Vornado tower uses powerful airflow to circulate all the air in the room. With OSCR, you also opt for smooth oscillation.

VORNADO OSCR32

TOWER CIRCULATOR

Vornado now offers two distinct ways to be comfortable: both from one beautiful product. Introducing OSCR32 – the Vornado Whole Room Tower Circulator with Oscillation On-Demand. OSCR32 still delivers Vornado's signature whole room circulation – utilizing stationary, high-velocity airflow to continuously circulate all the air in the room. OSCR32 also offers a second option: oscillation mode – sweeping the room with cooling beams of high-velocity airflow. Designed for smooth, quiet oscillation and embellished with a chromed carry handle, the OSCR32 would be a beautiful and functional addition to any space.

TOPLINE:

- Oscillation On-Demand
- Moves Air Up To 20 m
- 3 Speed Touch Control
- Energy Saving 3/6/9 Hour Timer
- Remote Control
- Grill Diameter Ø 30.5 cm
- Product Height 80.6 cm

OPTIONAL

VORNADO OSCR37

TOWER CIRCULATOR

Energy-saving control.

The 3/6/9 hour timer shuts OSCR off when you're not wanting to use it. Touch-sensitive controls help tailor your comfort between 3 settings as well as activating oscillation – or use the remote.

WHOLE ROOM CIRCULATION

OSCILLATION ON DEMAND

Circulate or oscillate.

A Vornado tower uses powerful airflow to circulate all the air in the room. With OSCR, you also opt for smooth oscillation.

VORNADO OSCR37

TOWER CIRCULATOR

OSCR37 delivers Vornado's signature whole room circulation – utilizing stationary, high-velocity airflow to continuously circulate all the air in the room. With whole room circulation, everyone in the room remains cool and comfortable – and that's only half the story. OSCR37 also offers a second option: oscillation on demand – sweeping the room with cooling beams of high-velocity airflow. Designed for smooth, quiet oscillation and embellished with a chromed carry handle, the OSCR37 would be a beautiful and functional addition to any space. There are those that have experienced the constant comfort of whole room circulation. There are those that enjoy the sweeping air experience of oscillation. OSCR37 delivers the best of both worlds. Doesn't it feel good to have options?

TOPLINE:

- Oscillation On-Demand
- Moves Air 23 m
- 4 Speed Touch Control
- Energy Saving 3/6/9/12 Hour Timer
- Remote Control
- Grill Diameter Ø 30.5 cm
- Product Height 93.3 cm

OPTIONAL

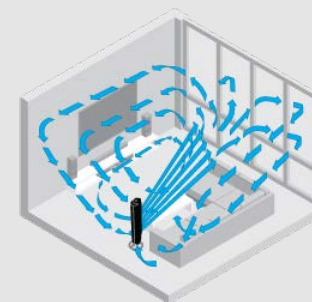

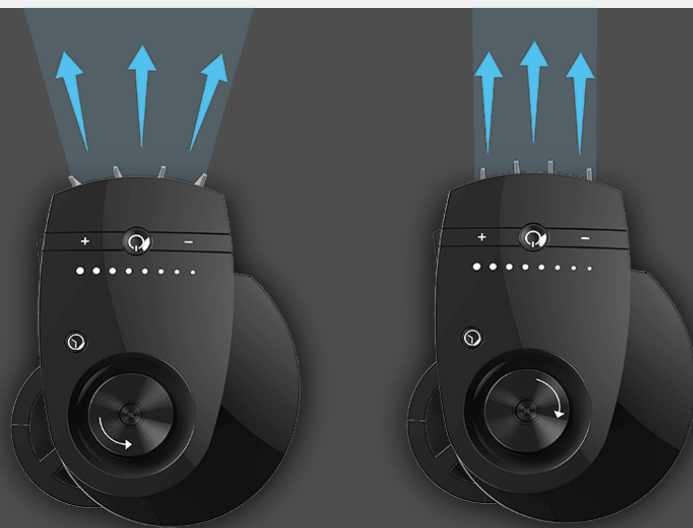

VORNADO TOWER M

TOWER CIRCULATOR

Versa-Flow™ adjustable airflow.

Versa-Flow™ allows you to create a wide span of airflow, a direct line of airflow and everything in between – giving you customized, constant comfort.

Comfort should be constant.

A Vornado NGT tower uses special airflow called Versa-Flow™ to circulate all the air in the room. The air flows fast, cool and constant to create a cooling experience unlike any other.

VORNADO TOWER M

TOWER CIRCULATOR

The Vornado Tower M Tower Circulator brings V-Flow air-circulating technology to the next level with Versa-Flow adjustable airflow. Versa-Flow allows you to create a wide span of airflow, a direct line of airflow and everything in between. The constant airflow eliminates the need for oscillation because the high volume of air is continuously moving throughout the room — creating quiet, comfortable, whole- room circulation. The Tower M has five speeds, touch-sensitive controls, energy-saving 1 – 8 hour auto-off timer, easy-to-clean air inlet grill and remote control.

TOPLINE:

- Versa-Flow Adjustable Air Flow
- Moves Air Up To 26 m
- 5 Speed Settings
- Touch Sensitive Controls
- Remote Control
- 1 – 8 Hour Timer
- Removable Inlet Grille (For Easy Cleaning)
- Grill Diameter Ø 27.9 cm
- Product Height 82 cm

AIR PURIFIERS

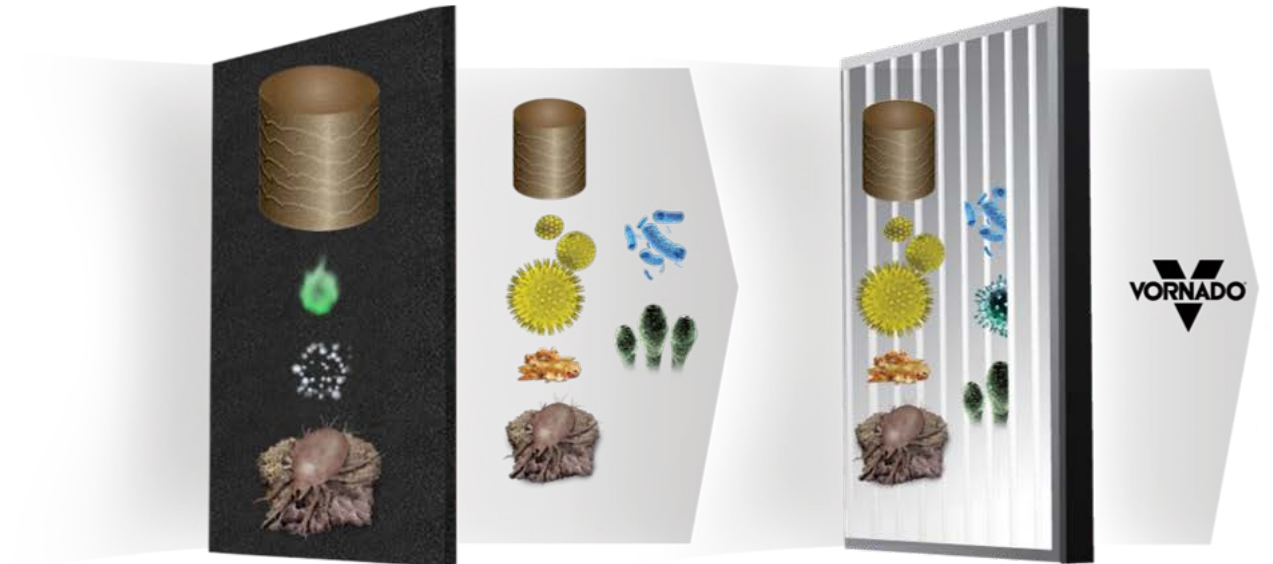

What is the effectiveness of HEPA14?

99.995% particulate removal at 0.1 – 0.3 μm (micrometer) in size or greater.

Activated Carbon Filter

True HEPA Filter

How is air cleaner product effectiveness measured?

CADR (clean air delivery rate) is published (typically on packaging) for consumers to reference performance and overall room size.

CADR consists of three numbers:

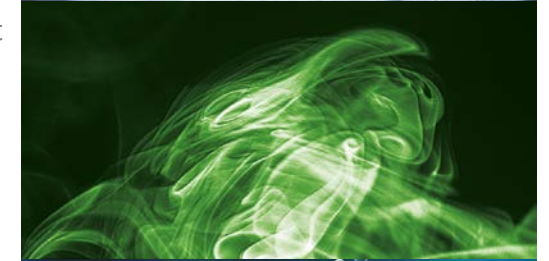

- Smoke (lowest number)
- Dust (middle)
- Pollen (highest)

These numbers are established by third party lab testing using ANSI/ASHRAE standard. The smoke number is used to calculate room size coverage. The dust number is used to calculate Energy Star claim.

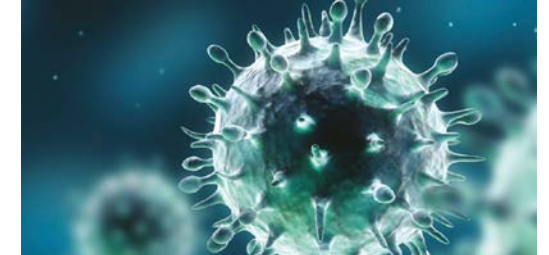

Smoke

Dust

Pollen

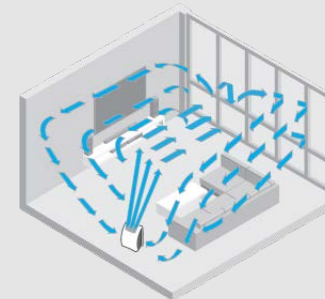

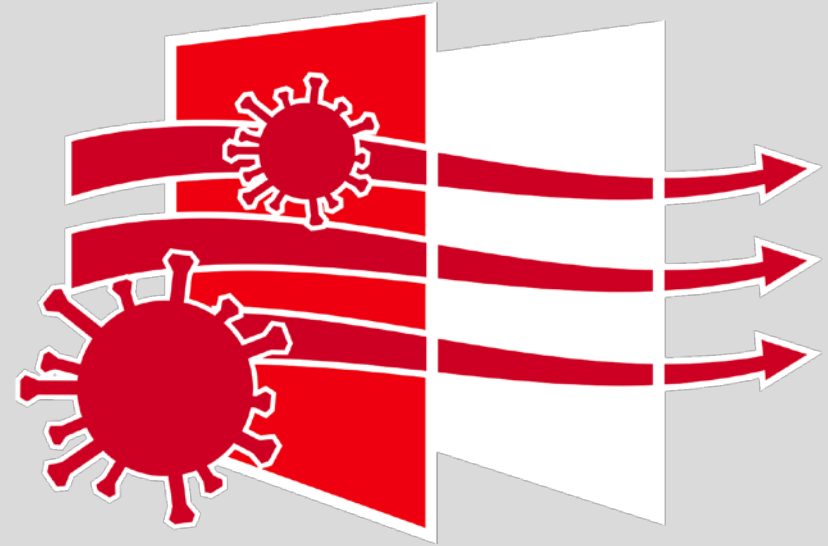

AIR PURIFIERS

Proven to reduce the risk of COVID infection.

Without question, mouth-nose protection and fresh indoor air can reduce the risk of infection with Covid viruses to a low level. In poorly ventilated rooms, however, the Covid viruses spread particularly well via so-called aerosols in the air.

A solution to permanently reduce corona and influenza viruses indoors is the VORNADO air purifier with a combination of activated carbon and HEPA filter of class 14 suitable, this filters very small particles with a diameter of 0.1 - 0.3 μm (micrometres) to 99.995 % from the room air and thus also a large part of the aerosols.

The AC350 is capable of moving and cleaning the powerful circulation of all the air in the room and purify it. This creates an environment free of odours, dust and allergens. AC350 has an intelligent technology that indicates inside when the filters need to be changed.

Purify more air, more often.

Vornado has combined a powerful blower with precise aerodynamics, to effectively clean all the air in the room. The air flows fast, cool and constant to create an experience unlike any other.

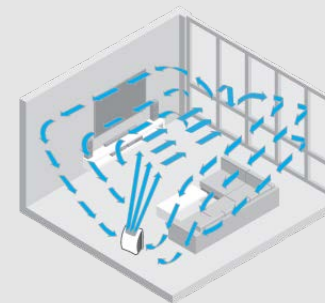

VORNADO AC350

TRUE HEPA AIR PURIFIER

Not all True HEPA air purifiers are created equal.

Even a unit with a 99.97 % HEPA filter isn't guaranteed to output 99.995 % clean air like a Vornado does. Gaps, poorly sealed filter housings and excessive air velocity all reduce the effectiveness of the product.

Purify more air, more often.

Vornado has combined a powerful blower with precise aerodynamics, to effectively clean all the air in the room. The air flows fast, cool and constant to create an experience unlike any other.

VORNADO AC350

TRUE HEPA 14 AIR PURIFIER

The Vornado AC350 Whole Room Air Purifier uses true HEPA 14 filtration, the most effective filtration available. The AC350 uses a radial blower to intake and clean all the air in the room – up to 20 – 30 m². Precision engineering allows the blower to operate quietly, despite its powerful air flow. The AC350 uses a combination of HEPA 14 and carbon filtration to trap Dust, Pollen, Pet Dander, Smoke, Bacteria, Mold Spores, Dust Mites and more. The carbon prefilter both adsorbs odors and traps larger particles.

TOPLINE:

- 1 True HEPA 14 Filter Captures 99.995 % of Contaminants
- 1 Activated Carbon Prefilter Captures Odors
- 3 Speed Settings
- Filter Change Indicator
- Electronic Push Button Controls
- Compact Size Fits Easily in Most Spaces
- Product Dimension 33.5 x 27.6 x 45 cm

GO 9

RECHARGEABLE FAN WITH STAND

Powerful comfort outside of the home sounds challenging – GO 9 makes it easy. With a robust, yet efficient DC Motor powered by permanent, rechargeable batteries, cord-free comfort lasts up to 22 hours on low (11,200 mAh capacity) – saving you hundreds of dollars on alkaline batteries over the life of the product. The sleek aluminum base adds a modern touch your home or office. The 45 degree adjustable head tilt and simple 3-speed controls make comfort effortless. An LED light lets you know battery/charge status, and with a 6 hour re-charge via a removable 6 foot USB cord you're back on the go in no time.

TOPLINE:

- Portable Fan
- Rechargeable Batteries
- 3 Speed Settings
- 11,200 mAh Capacity
- LED Indication Light
- USB Powered
- 6 Foot USB Cord
- 45° Adjustable Head Tilt
- 2 Year Warranty
- Grill Diameter Ø 24.7 cm
- Product Height 32 cm

SPIN 10

OSCILLATING DESKTOP FAN

For far too long, basic fans have been inefficient and boring – SPIN 10 brings a fresh new approach to oscillating fans. A less-is-more approach applies to the energy-efficient DC motor, allowing SPIN 10 to use less yet providing more – more power, more style and more oscillation range than a typical oscillating fan. With 110 degrees of oscillation, and 3 speed touch-sensitive controls commanding the quiet, energy-efficient DC motor, controlling your comfort is effortless. SPIN, a refreshing departure from the norm – it's all around cool.

TOPLINE:

- 110° Oscillation
- 3 Speed Settings
- Touch Controls
- Quiet & Powerful
- Small Footprint
- 1.83 m Power Cord
- Energy-Efficient DC Motor
- 2 Year Warranty
- Grill Diameter Ø 25.6 cm
- Product Height 39.4 cm
